

Carbon Sequestration Forum VIII

The State of Geological Storage of CO₂

13 – 14 November 2007

Stanford University, Stanford, CA

Agenda

Tuesday, 13 November 2007	
7:30 am	Registration & Continental Breakfast
8:30	Session 1: CO ₂ Storage: Ready for Prime Time? Presentation 1: Sally Benson, Stanford University Presentation 2: Stefan Bachu, Alberta Energy and Utilities Board
10:00	Break
10:30	Session 2: Regulating Geological Storage of CO ₂ Presentation 1: Mary Jane Coombs, California Institute for Energy & Environment Presentation 2: David Victor, Stanford University Presentation 3: John Parsons, MIT
12:30 pm	Lunch
2:00	Session 3: The Ultimate Fate of the CO ₂ Presentation 1: Marc Hesse, Stanford University Presentation 2: Ruben Juanes, MIT
3:30	Break
4:00	Session 4: Scaling-up Geological Storage Presentation 1: Chuck Fox, Kinder Morgan Presentation 2: John Bradshaw, Geoscience Australia
6:00 pm	Reception & Dinner, Stanford Faculty Club
Wednesday, 14 November 2007	
8:00 am	Continental Breakfast
8:30	Session 5: Public Acceptance: Lessons from California Presentation 1: Larry Myer, California Energy Commission Presentation 2: George Peridas, NRDC Presentation 3: Sarah Wade, AJW
10:30	Break
11:00	Session 6: Project Updates Presentation 1: Well Bores: George Guthrie, LANL Presentation 2: Coal Adsorption: Lynn Orr, Stanford - GCEP Presentation 3: SECARB Demonstration Project: Richard Rhudy, EPRI Presentation 4: The CES Process: Keith Pronske, Clean Energy Systems
1:00 pm	Adjourn
